Colour Control Cabinets

The VeriVide Colour Control Cabinet (CCC) was created in collaboration with PIRA for the Graphic Arts and Printing Industry. The cabinet offers standardised viewing conditions for the assessment of colours, ink weight, register, dot gain and provides an ideal environment for presentations to customers.

To optimise consistency of viewing conditions the unit has been fitted with a VeriVide control panel, giving the user increased control over the operation of the cabinet through additional features, including a back lit digital display, data storage and optional dimming. A unique feature is our neutral gray concave viewing deck that eliminates secular reflection, allowing accurate colour and quality control.

Proof sheets can be held in place on the curved metal deck using magnets provided.

The CCC is fitted with a single light source, either the VeriVide D65 (6500K) lamp conforming to BS 950: Part 1, or the D50 (5000K) lamp conforming to BS 950: Part 2 and ISO 3664 standards, both with a very high Colour Rendering Index (C.R.I.).

Some viewing applications may require additional light sources - for example TL84, a Point of Sale illuminant. For more information please contact the sales department or email: enquires@verivide.com

cabinets DATA

Below is an illustration of a typical product order code for a Colour Control Cabinet (CCC). To create your own product order code, simply fill in the blue boxes in [Table 1](#) by following the quick step-by-step guide below, or visit www.verivide.com where the process is fully automated within the product catalogue section.

Typical Product Order Code

Style	Size	Light Source 1	Light Source 2	Light Source 3	Light Source 4	Interior Colour	Voltage
CCC	150	D65	-	-	-	G5574	230v

Table 1 – Your Product Order Code

Style	Size	Light Source 1	Light Source 2	Light Source 3	Light Source 4	Interior Colour	Voltage
CCC							

1. Select the cabinet [Size](#) you require from the table below, and specify in [Table 1](#).

Size (dimensions in mm)		Width	Height	Depth
150	Overall Usable Deck	1560 1530	1085 985	620
120	Overall Usable Deck	1290 1260	1085 985	620
60	Overall Usable Deck	710 680	945 800	420

2. All cabinets are supplied in a “Hammer Finish” grey but can also be supplied in a “Light Texture” grey. If this is required please add “[LG](#)” to [Table 1](#) beside the cabinet size chosen e.g. 150/LG

3. All cabinets are supplied complete with lamps. If you have your own [Light Source](#) requirements or would like an additional light source to the typical selection given, please specify. Should you require assistance with your selection, please refer to the Data Sheet/pdf - Lamp Options.

4. If the standard or application you are working to requires a variable intensity of light, a [Dimmable](#) option is offered. If required, please add “[D](#)” to [Table 1](#) beside the relevant Light Source, e.g. D65/D.

5. In order to view your samples objectively without the influence of surround or background colours, the [Interior](#) of the cabinets are finished in a neutral matt grey. All cabinets are normally supplied with the interior grey reference G5574, but can be supplied with an alternative of Munsell N5 or N7. Please specify in [Table 1](#).

Interior Colour	Grey: G5574	Munsell Grey N5	Munsell Grey N7

6. Please select the [Voltage](#) you require for your cabinet by specifying it in [Table 1](#).

Voltage	230v	110v

VeriVide offers a range of Accessories and Optional items. To see which accessories are available with the CCC range, please refer to [Table 2](#) and [Data Sheet/pdf – Accessories](#) for more information.
