Fashion, Home + Interiors

PANTONE® Fashion, Home + Interiors SMART Swatch Cards

All 2,534 individual colour swatches ready to go on the same business day.*

The most accurate and convenient way for designers to specify their design inspirations. Cut into four name and numbered strips and send to multiple locations. Spectral data and dye formulation available online.

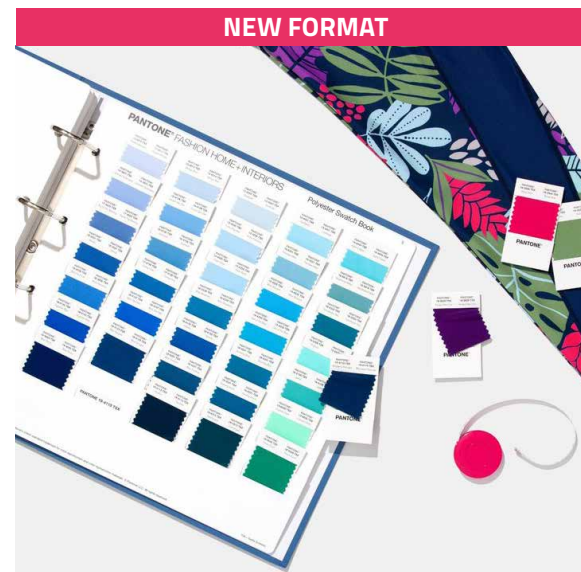

*On orders received before 1.30pm. Stocks of individual shades may be affected by high demand.

When colour and appearance are critical to product quality, VeriVide is the invaluable resource. VeriVide has been improving colour assessment technologies globally since 1964. Many of its products set the visual appearance standards that suppliers to major retailers must meet.

VeriVide customers range from multinationals to small enterprises in sectors including textiles and apparel, food and beverages, pharmaceuticals, automotive, print and graphics.

Polyester Swatch Book FFS200

The Pantone Polyester Swatch Book contains 203 new colours from timeless neutrals to eye-popping neons that are not available in the existing cotton or nylon ranges.

Bring your Fashion & Home set up to date with the most cost effective method of adding the new colours as the swatches cost less than £3 each!

Previously only available in a swatch box, this swatch book format. The swatches are kept in place in the pockets designed to hold them and are arranged chromatically by colour family for ease of selection and replacement - swatches will no longer get mislaid!

Use for palette development, mood boards and presentations in athletics, leisure, lingerie, swimwear, hosiery, outdoor sports and many other applications which require trend driven colours on synthetic fibres.

The 203 new colours are also available as individual SMART swatches which can be ordered separately.

NEW

FHI Metallic Shimmers Colour Guide + Colour Specifier set

The Pantone Fashion, Home + Interiors System introduces 200 new shades in this exciting Metallics Shimmers Colour set - comprising the Metallic Shimmers Colour Guide- FHP310 and the Metallic Shimmers Colour Specifier-FHIP410.

This collection of lustrous metallic colours are carefully selected to provide a broad range of shimmering metallic finishes that designers, product developers, and manufacturers want. The metallic finish speaks luxury and brilliance while still showing off the true colour on products.

The set is ideal for product design, fashion accessories, fashion trim, footwear, hard home, interiors, colour cosmetics, and tech/consumer electronics.

The Metallic Shimmers Colour Specifier

- Single-volume, three-ring desktop binder
- One full colour per page with 42 perforated 0.787" x 1.18" paper chips
- Nitro-cellulose coating (similar to a paint sample) adds brilliance and lustrous finish
- Includes a Paper Chip Saver for loose chip organization and storage
- Replacement Chip Pages sold separately

The Metallic Shimmers Colour Guide

- 200 colours with pearlescent and metallic finishes in a fan format
- One full-bleed colour per 1.75" x 6" page
- Nitro-cellulose coating (similar to a paint sample) adds brilliance and lustrous finish

Graphics + Print

Extended Gamut Coated Guide GG7000

1,729 Pantone spot colors simulated using seven-color process (CMYK+OGV base inks).

Extended Gamut Colour is the latest development in process printing technology with 90% better Pantone spot color matches over CMYK by adding Orange, Green and Violet to the color gamut. Get more vibrant colors and closer matches to Pantone spot colors when using our Extended Gamut Guide for marketing materials, signage, and packaging.

Metallics GG1507A & GB1507A

655 Metallic solid coated colours for print and packaging, including 54 completely new shades (including Rose Gold base ink) in a tear out paper chip book format or fan guide.

Using readily available Pantone spot colour inks and coatings a multitude of effects can be achieved more economically than using foil stamping.

Pantone Metallics are ideal for packaging, logos and branding, shop signage, vinyl graphics, and marketing materials that benefit from luxury design details.

Use the chip books to create moodboards, aid client presentations or as a reference when designing packaging. Use the fan guide for specification, inspiration and as a general design tool for graphics industries.

Solid Chips Coated & Uncoated GP1606A

Solid Chips Book includes all Pantone spot colors as shareable perforated chips on coated and uncoated paper. Use this versatile format for adding color into design palettes, mood boards, or product sketches, attaching color to design files for sharing with your production partners, and for approving color on press. Includes a Paper Chip Saver for easy loose chip organization and storage. A supplement with the new 294 trend relevant colours is also available.

Chips Replacement Pages

An affordable way to replenish the colours you use most. Replacement pages are available for all of the Graphics & Print books; Solid Chip, Pastel & Neon, Premium Metallic and Metallic, in both coated and uncoated.
Order before 1.30pm for next day delivery.

Portable Guide Studio

GPG304A

Set of eight guides with over 5,000 solid, process & special effects colours.

Portable Guide Studio is a comprehensive collection including:

- Formula Guide Coated & Uncoated
- Color Bridge Coated & Uncoated
- CMYK Coated & Uncoated
- Metallics Coated
- Pastels & Neons

Use as inspiration, for dynamic logos and branding, marketing materials, digital design and animation.

Color Bridge Set Coated & Uncoated GP6102A

Cross-reference 2161 solid colours to sRGB, CMYK & Hex.

The most versatile tool for graphic and digital designers, Color Bridge Set provides a side-by-side visual comparison of Pantone spot colours against their closest CMYK process printing match on coated and uncoated paper. The set also includes corresponding CMYK, Hex and RGB values.

The Color Bridge Set can be used for digital design, animation and printed materials when CMYK printing is required.

TPG Sheets TPGS

Available for all 2,310 FHI colours, TPG sheets are designed to illustrate the appearance of colour of products. Ideal for hard home, ceramics, textiles, apparel, paint, cosmetics, fashion accessories and leather goods. Each 216 x 279.5mm sheet includes a printed grid of the colour name and number on the reverse.

Plastic Standard Chips

Your favourite Pantone TCX and C graphics colours are now available in plastic! The chips can be used for specifying hard nursery or home goods; and are made from polypropylene and have a matte and a glossy surface. The 75mm x 50mm chips have a handy hole in the top corner for palette grouping.

PANTONE Capsure™ RM200 PTO1

Capture the colour of any surface, material or fabric and then to match it quickly and accurately to a PANTONE colour.

The portable, compact and lightweight time-saving device comes preloaded with more than 8,000 Pantone colours. Can be used on even small, patterned, multi-coloured textures and textiles. Included software integrates your captured colours into many leading design programs and stores up to 100 captured colours. Comes with protective carry pouch, wrist strap, USB cable, software and quick-start guide. Bluetooth version is also available.
